Please find attached cost estimates representing our current approach (100% T&D) at three different annual funding levels. For all estimates, it is assumed that all costs would escalate annually at 3.5%. For the \$15M funding scenario, it is assumed that the annual funding would increase annually also at 3.5%. For the \$30M and \$80M funding scenarios, it is assumed that the annual funding would not increase.

Feel free to call me or e-mail me with any questions.

Anita
